📍 Cairo

EDUCATION

Computer and Systems engineering

Ain Shams University

📅 09/2021 - 06/2026 📍 Cairo, Egypt

- Currently studying Computer and Systems Engineering at the Faculty of Engineering, Ain Shams University, with a 3.52 GPA.

Graduated IGCSE

St Fatima International School

📅 08/2018 - 06/2021 📍 Cairo, Egypt

- Cairo, Egypt
- Graduated from St. Fatima International School with an IGCSE score of 100%.

EXPERIENCE

Information System and Infrastructure Intern

National Bank of Egypt

📅 08/2024 - 09/2024 📍 Head office

External Channel and ATM Support Sub-department

- Gained valuable experience working in the industry, applying learned concepts to real-world scenarios.
- Collaborated with fellow interns on group projects and presentations, fostering a positive team environment.
- Developed hands-on experience with various software programs, enhancing proficiency and expanding my technical skill set.

IT Intern

Enppi

📅 07/2024 📍 Cairo, Egypt

Engineering For The Petroleum & Process Industries

- This internship was more focused on learning about networks and network security

PROJECTS

Shopping System

📅 2024 📍 University

My team developed a shopping system using Java as part of our Advanced Programming course at university.

- **Creating an account for both a buyer and a seller**
- **Allowing sellers to list their products**
- **Allowing the buyer to set his address and order from the application**
- **Our project was a prototype, so actual ordering was not possible. At the time, we had not studied databases, so we primarily used arrays.**

GPS tracking System

📅 2024 📍 University

A GPS tracking system developed using Embedded C and an ARM Cortex Tiva M4. This project focused on embedded systems and included:

- **Tracking movement when the user presses a button on the Tiva board, stopping either when the button is pressed again or after a certain distance.**
- **Displaying the movement track on a map after it was finished**

SUMMARY

Computer and Systems Engineering student driven by a passion for software development and problem-solving. Experienced in building and optimizing applications through academic projects and internships. Focused on writing clean, efficient code and continuously expanding my knowledge to tackle complex challenges.

KEY ACHIEVEMENTS

Efficiency Boost

Increased project efficiency by 25%.

Academic Excellence

Achieved 3.61 GPA over 5 semesters.

Internship Completion

Completed 2 successful internships in 2024.

Project Design

Designed 2 prototypes for university.

SKILLS

Professional Skills

Java

Object Oriented Programming

Python

C++

MATLAB

Problem Solving
